

Content Curation Padlet by Marie

See the OERs Marie R's column in https://padlet.com/extend_ecampusontario/nis016u27mla

The image shows a Padlet board with three columns, each titled "OERs Marie R's".

- Column 1 (Left):**
 - Anonymous 8mo**: "Accessing Merlot. I found an interesting textbook resource called Information Systems for Business. This resource provides an introductory understanding of business systems. The textbook is available in downloadable PDF format by David Bourgeois, Biola University. <https://open.umn.edu/open-textbooks/textbooks/189>"
 - Image:** Cover of the textbook "Information Systems for Business and Beyond" by Saylor.org.
 - Anonymous 8mo**: "This one failed the CRAAP test based on currency. I chose another resource instead. The peer reviews were solid and the design of the content allowed for interpretations without directly dating content. I moved to this resource <https://open.umn.edu/opentextbooks/textbooks/information-systems-a-manager-s-guide-to-harnessing-technology>"
- Column 2 (Middle):**
 - Anonymous 8mo**: "Business Math ecampusontario open library. One course that tends to challenge our learners extensively is math. Typically our learners are not strong math performers. An open textbook such as this could prove helpful." Includes a thumbnail for "Business Math: A Step-by-Step Handbook".
 - 1 comment**: "Anonymous 8mo: This resource passed the CRAAP Test. It an excellent resource I wouldn't hesitate to enact this one into my program."
 - Anonymous 8mo**: "Translating Relational Queries into Spreadsheets Using Core. By Jacek Sroka, Adrian Panasiuk, Krzysztof Stencel and Jerzy Tyszkiewicz. This resource is helpful as it covers an important aspect of spreadsheet management it provides the context for learner's to understand both relational queries and moving them..."
- Column 3 (Right):**
 - Translating Relational Queries into Spreadsheets Using Core**: "By Jacek Sroka, Adrian Panasiuk, Krzysztof Stencel and Jerzy Tyszkiewicz. This resource is helpful as it covers an important aspect of spreadsheet management it provides the context for learner's to understand both relational queries and moving them into spreadsheets a subject area covered in my courses but often misunderstood. This will foster a greater understand..."
 - File Upload:** "Translating Relational Que... 0 B file core" with a CORE logo.
 - 2 comments**: "Anonymous 8mo: Failed CRAAP Test. Was outdated in some area and limited in scope. Had to go to another link to find downloadable PDF. Simple presentation. Would use this resource instead." and "Anonymous 8mo: <https://open.umn.edu/opentextbooks/textbooks/relational-databases-and-microsoft-access>"
