

Curriculum that does not draw on their personal experiences and/or their foundational learning practice/mechanism

Fear of failing or not meeting expectations

Overwhelmed with school, work, life responsibilities, permanent residence status.

New environment, people, culture, system for learning

### Think and Feel?

Hear?

See?

Demand for following/adhering to new learning mechanisms and processes AND know IT.

Expectations of learning compared to foundational learning and previous practice

### Say and Do?

Interaction with Faculty and F2F learning

Details on assessments with examples/samples and mechanical/process of completing tasks - not interpretational

### Pain Points?

Time management for learning, life, existing expectations, future plans

Need to overcome concept of going to Faculty/Learning Community for support/explanation/help

### Gain Points?

Availability - office hours, F2F classes, synchronous classes, COMMUNICATION

Videos & Live Illustrations/Working Sessions
