

Technology-Enabled Activity Planning Document

This document may help you plan your creation, as well as encouraging you to estimate how much time you will need to invest.

Title:	<i>Student Engagement Activity</i>
Tool using:	Bongo
Idea:	Focusing on the first few minutes of each class (start - up) what activities can be utilized as an effective 'warm up' and ensure class engagement transitioning into the prepared content and exercise to follow.
Curriculum integration:	Polls, links to videos, discussion boards, personal storytelling time, class review exercises.

Now, identify what tasks are involved in your creation and estimate how much time it will take to complete them. It's not a commitment to a particular approach, rather a guide for you to anticipate what will be required.

Enter an 'X' in any column next to a task your creation will entail, and then predict how long it will take you to do (in hours).

[X]	Task	Est. time (in hrs)
X	Generate ideas	1
x	Conduct research	1
	Storyboard	
x	Write script	1
x	Find graphics (don't forget to attribute!)	1
x	Create graphics	1

x	Record & edit audio	1
x	Record & edit video	2
x	Write copy (text)	.5
	Design website (or style web authoring tool, like Scalar or Prezi)	
	Write code	
	Identify and remedy any accessibility barriers (e.g. captioning)	
x	Review for errors	.5
