

(type text here)
lots of new and interesting concepts

(type text here)
enjoy the sessions, feel they are not memorizing the material rather spending more time practicing skills

(type text here)
feel the lecture/content is fun and interesting

(type text here)
many comments in the chat (Zoom) during lecture or office hours, questions sent by email

Think and Feel?

Hear?

See?

(type text here)
enjoy the flipped drop-in sessions, mentioned that they were less anxious

(type text here)
most cameras are off during the lecture (Zoom), students comfortable sharing their screens

What does your learner...?

Say and Do?

(type text here)
would like more hands on experience, would like to try more tools

(type text here)
review the synchronous lecture material presented in recordings (asynchronously)

Pain Points?

(type text here)
struggle to balance assignment deadlines with other courses

(type text here)
commitments and responsibilities make it challenging to keep up with material sometimes

Gain Points?

(type text here)
find the course related to their future careers/ graduate school

(type text here)
found the assignments as a useful, practical component, felt it was meaningful,
