

Technology-Enabled Activity Planning Document

This document may help you plan your creation, as well as encouraging you to estimate how much time you will need to invest.

Title:	Gathering Feedback: Allowing Learners to Share Anonymously
Tool using:	Poll Everywhere
Idea:	By briefly polling students and allowing them to anonymously share their comfort-level and understanding of new concepts, I will be able to easily identify areas for further focus and practice. This needs to be done in a time-efficient manner while also allowing students to see that others are struggling in the same areas.
Curriculum integration:	<ul style="list-style-type: none"> Assess comprehension of new content Assess need for further practice Assess areas for potential assessment

Now, identify what tasks are involved in your creation and estimate how much time it will take to complete them. It's not a commitment to a particular approach, rather a guide for you to anticipate what will be required.

Enter an 'X' in any column next to a task your creation will entail, and then predict how long it will take you to do (in hours).

[X]	Task	Est. time (in hrs)
X	Generate ideas	2
	Conduct research	
X	Find graphics (don't forget to attribute!)	0.5
	Create graphics	0
	Record & edit audio	0
	Record & edit video	0
X	Write copy (text)	1
X	Identify and remedy any accessibility barriers (<i>language translation</i>)	1
X	Review for errors	0.5
Total Time		5
