

I have curated the three following OER's:

a) OASIS (Openly Available Sources Integrated Search) – <https://oasis.geneseo.edu/>

I really like it as a course instructor for adult education because there is are so many open-source textbooks and modules. So many of our students find it difficult to buy expensive textbooks; OASIS is super great.

b) The Mason OER Metafinder (MOM) <https://oer.deepwebaccess.com/oer/desktop/en/search.html>

It's a referatory, not a repository; that is, I would use this to find extremely rare things. Instead of searching say, twenty different indexes, the metafinder is one big index search.

c) eCampusOntario Open Library – <https://openlibrary.ecampusontario.ca>

This would be my main option for Ontario resources, especially with respect to eCampusOntario, Ontario curriculum materials and even information about Ontario Extend.
