

Concerned that online will not make them as marketable as students who have completed field placements

Stressed trying to juggle family, job and school

Every instructor presenting information differently

Think and Feel?  
(preoccupations)

Student learns best in person, face to face with instructor

Hear?  
(influences)

Class facebook page developed to help students share information

See?  
(environment)

Too many distractions when working from home including internet connection issues

What does your learner...?

Say and Do?  
(behaviour)

Do not turn cameras on. Students may or may not be engaged or even present

Discussion board does not effectively produce interactive discussion

Pain Points?

Not enough synchronized learning time. Difficulty developing a relationship with student

Commitment to online learning not as strong as in class

Gain Points?

Instructor readily available. Answers emails quickly and will virtually meet when needed

Structure of weekly folder easy to follow
