Technology-Enabled Activity Planning Document

This document may help you plan your creation, as well as encouraging you to estimate how much time you will need to invest.

Title:	Dictating Text as Rough Drafts
Tool using:	Windows Speech Recognition
Idea:	I think dictating text as rough drafts can be a suitable strategy for students with writer's block as an alternative to graphic organizers such as mind maps
Curriculum integration:	With essays and short stories, dictation can be a part of a writer's first draft with the Writing Process.

Now, identify what tasks are involved in your creation and estimate how much time it will take to complete them. It's not a commitment to a particular approach, rather a guide for you to anticipate what will be required.
Enter an 'X' in any column next to a task your creation will entail, and then predict how long it will take you to do (in hours).

[X]	Task	Est. time (in hrs)
x	Generate ideas	10 minutes
x	Conduct research	30 minutes
x	Storyboard	10 minutes

	Write script	10 minutes
	Find graphics (don't forget to attribute!)	
	Create graphics	
	Record & edit audio	
	Record & edit video	
	Write copy (text)	
	Design website (or style web authoring tool, like Scalar or Prezi)	
	Write code	
	Identify and remedy any accessibility barriers (e.g. captioning)	
	Review for errors	10 minutes
	Other:	
	Total	**70 minutes**
