

Experimenter 2 Padlet Example

- Padlet is an online collaboration tool for teachers and students to feature images, links, videos, and documents.
- Padlet is available to Conestoga College teachers and students.
- I want to explore the use of Padlet to create a “virtual” poster for a Scrum role.
- To get started, students will watch a set of videos (<https://www.scrumalliance.org/learn-about-scrum/scrums-elearning-series>) and they will add text, images, videos and links to the padlet.

Steps:

1. From the Padlet dashboard (e.g., <https://conestogac.padlet.org>), make a new Padlet (e.g., Canvas)

2. Share the Padlet link and let the students participate. E.g., https://conestogac.padlet.org/mtanuan/info2320_smrole_lab3
