

# Course Delivery Modes

How courses can be delivered

1

Face-To-Face:

The course is delivered in person and students are in the physical classroom

2

Alternate Delivery:

The course is delivered online synchronously. The instructor uses a video conferencing platform to meet with students during a designated time, virtually.

3

Online:

The course is delivered asynchronously online. No class meetings take place.

4

HyFlex:

The course is delivered face-to-face and online, both synchronously and asynchronously. Students can choose how they would like to participate in the course.
