

Technology-Enabled Activity Planning Document

This document may help you plan your creation, as well as encouraging you to estimate how much time you will need to invest.

Title:	Advanced Wireless Security Curriculum Development
Tool using:	MS Office, LDS, MS Project
Idea:	Using these tools to create the labs for the students, so that the labs are easy to be understood, creative and understanding
Curriculum integration:	Advising the students to use the tools to submit the group assignments and individual assignments using the MS Office, and MS Project.

Now, identify what tasks are involved in your creation and estimate how much time it will take to complete them. It's not a commitment to a particular approach, rather a guide for you to anticipate what will be required.

Enter an 'X' in any column next to a task your creation will entail, and then predict how long it will take you to do (in hours).

<input checked="" type="checkbox"/>	Task	Est. time (in hrs)
	Generate ideas	.5 hrs
	Conduct research	1 hr
	Storyboard	1 hr
	Write script	1 hr

	Find graphics (don't forget to attribute!)	1 hr
	Create graphics	n/a
	Record & edit audio	n/a
	Record & edit video	N /a
	Write copy (text)	1 hr
	Design website (or style web authoring tool, like Scalar or Prezi)	1 hr
	Write code	.5 hr
	Identify and remedy any accessibility barriers (e.g. captioning)	.5 hr
	Review for errors	.25 hrs
