

Technology-Enabled Activity Planning Document

This document may help you plan your creation, as well as encouraging you to estimate how much time you will need to invest.

Title:	Collaborative group work - come up with MH resources on campus
Tool using:	Shared OneDrive Word document (similar to a shared google doc)
Idea:	It is really difficult to encourage group work in online courses. And also for learners to see where others are at. So a collaborative document that updates in real-time is useful. This also eliminates duplication of resources.
Curriculum integration:	I want students to focus on curating an exhaustive list of mental health resources available on campus but most of all interact with their peers using this collaborative document.

Now, identify what tasks are involved in your creation and estimate how much time it will take to complete them. It's not a commitment to a particular approach, rather a guide for you to anticipate what will be required.

Enter an 'X' in any column next to a task your creation will entail, and then predict how long it will take you to do (in hours).

[X]	Task	Est. time (in hrs)
x	Generate ideas	0.5
	Conduct research	
x	Storyboard	1
x	Write script	0.5
x	Find graphics (don't forget to attribute!)	0.5
	Create graphics	

	Record & edit audio	
	Record & edit video	
x	Write copy (text)	0.5
	Design website (or style web authoring tool, like Scalar or Prezi)	
	Write code	
	Identify and remedy any accessibility barriers (e.g. captioning)	
	Review for errors
