Technology-Enabled Activity Planning Document

This document may help you plan your creation, as well as encouraging you to estimate how much time you will need to invest.

Title:	Male Sex Organs Hotspot
Tool using:	H5P Hotspot interactive
Idea:	Use an OER image to create a hotspot labeling activity of male reproductive organs to enhance learning on sex anatomy
Curriculum integration:	It will address learning outcomes related to anatomy and reinforces the classroom learning on hormonal processes.

Now, identify what tasks are involved in your creation and estimate how much time it will take to complete them. It's not a commitment to a particular approach, rather a guide for you to anticipate what will be required.

Enter an 'X' in any column next to a task your creation will entail, and then predict how long it will take you to do (in hours).

[X]	Task	Est. time (in hrs)
X	Generate ideas	1 hour
	Conduct research	
	Storyboard	
	Write script	
X	Find graphics (don't forget to attribute!)	1 hour
	Create graphics	

	Record & edit audio	
	Record & edit video	
X	Write copy (text)	1 hour
	Design website (or style web authoring tool, like Scalar or Prezi)	
X	Write code	30 mins
X	Identify and remedy any accessibility barriers (e.g. captioning)	15 mins
X	Review for errors	10 mins
