Gil Winch: How we can use the hiring process to bring out the best in people

Anonymous 2h
C - recorded in Nov 2020 - current and the topic is not requiring current information. Link is user friendly. R - the topic relates to content within my course. The intended audience appears to be business owners, managers, and HR professionals. It's not very in depth and more of a "sound bite" with a couple of practical suggestions. It

OER Statistics Textbook

openstax.org
Introductory Business Statistics - OpenStax

This is the intro to business statistics textbook that I will be using in my statistics courses. The students in my stats courses generally do not buy the required textbook for my courses, instead relying on the existing resources I created and added to the LMS. My long-term goal is to adapt and customize this textbook to meet the needs of my courses, which use Excel to perform statistical

Chiropractors

open.umich.edu
Manual Medicine | Open Michigan

I found this OER that can be explored by the student who is motivated to dive a little deeper on this weeks lesson about Healthcare Practitioners. The learner can find here a module that will support their learning.
