I am looking at the curation concept and the various resources available to help us to curate content. Even considering that Extend Ontario provide a great list of resources, searching within them does not provide an immediate match, that makes me think about better exploring

Samir Stasi- Environmental, social, and corporate governance

umbrella term that refers to frameworks designed to be integrated into an organization's strategy to create enterprise value by expanding the organizational objectives to include the identification, assessment and management of sustainability-related risks and opportunities in respect to all organizational stakeholders (including but not limited to customers, suppliers and employees) and the environment as defined in Wikipedia.

This open textbook covers all the material, and some case studies my students will cover in a college-level Personal Finance course.
