

Importance of projects for their future roles

No time for doing a project.

Why do I have to work with 3 other people?

There is a steady stream of project deliverables.

Think and Feel?

What does your learner...?

Hear?

How to engage their stakeholders the importance of gradually getting things done.

See?

Weekly deadlines for stakeholder updates, schedule updates, meeting minutes and status reports.

Say and Do?

No time for project work on top of working and other classes.

Can I do this?

Pain Points?

Getting started and organizing their projects.

Inevitable time management issues with work schedules, other classes.

Gain Points?

Once the schedule is in place and the team moves from to the performing stage of the project.

The feeling of getting things done, and the confidence in their ability.
