

# Technology-Enabled Activity Planning Document

This document may help you plan your creation, as well as encouraging you to estimate how much time you will need to invest.

Title:	Learning concepts through additional resource exploration
Tool using:	ProQuest
Idea:	This plan is meant to support students in learning new language (field specific lingo) through multiple lenses – from a myriad of voices who carry different experiences and understanding.
Curriculum integration:	Understanding terms like: pedagogy; pedagogical documentation; emergent curriculum; as well as how some of these philosophical approaches are incorporated in local and global contexts.

Now, identify what tasks are involved in your creation and estimate how much time it will take to complete them. It's not a commitment to a particular approach, rather a guide for you to anticipate what will be required.

Enter an 'X' in any column next to a task your creation will entail, and then predict how long it will take you to do (in hours).

[ X ]	Task	Est. time (in hrs)
X	Generate ideas	30 minutes
X	Conduct research	1 hour
	<a href="#">Storyboard</a>	
	Write script	

	Find graphics (don't forget to attribute!)	
	Create graphics	
x	Record & edit audio	30 minutes
x	Record & edit video	30 minutes
	Write copy (text)	
	Design website (or style web authoring tool, like Scalar or Prezi)	
	Write code	
x	Identify and remedy any accessibility barriers (e.g. captioning)	1 hour
	Review for errors	
X	Other: Encourage students to pilot and offer feedback to strengthen this idea	1 hour (class time?)
