Why do you think this is our only task to do.
There is a good chance we can not properly communicate during the project as we do not know each other we
It improves your team working skills)
What they learned in class does not cove all aspects of their project.
Think and Feel?
Hear?
See?
You learn how to put your knowledge in practice.
They have a hard topic to work on/Need more time to finish that.
What does your learner...?
tWe need more training to help us achieve our project objectives.
Say and Do?
Start the task very late/ Ask for deadline extention.
Some students find it hard to adjust themselves to team activities.
Pain Points?
Some students do not spent enough time on self learning.
Students appreciate practice team workinh techniques.
Gain Points?
Students learn more about the subject throuth self learning techniques.
