

# Technology-Enabled Activity Planning Document

This document may help you plan your creation, as well as encouraging you to estimate how much time you will need to invest.

Title:	Finding History
Tool using:	Padlet
Idea:	<p>Task One: To learn more about Kingston and Canada’s rich history, students are tasked to explore the city of Kingston to find a monument, landmark or item with historical significance and take a picture of it. The photo taken should have the student in it.</p> <p>Task Two: A short description of the item must be given along with its connection to history. This means that research must be conducted about the monument, landmark, or item. The student should share the picture that they have taken through a Padlet post.</p> <p>Rationale: This activity helps break the monotonous nature of teaching history to the students and will allow them to develop intrigue and curiosity to the subject matter. Furthermore, the activity will help them engage the material better and also facilitate interaction with their peers, and thus addressing the learner’s challenge.</p>
Curriculum integration:	<p>This assessment is designed to help students expand their learning from the four corners of the classroom and allow them to be able to connect and relate what they have learned in the in class to the history that is present around them. This is to foster appreciation and respect to the history of Canada. Furthermore, the assessment allows student to interact with their peers and also develop interest and appreciation towards history. Lastly, this will assess the students research, citation, referencing, and fact checking skills.</p>

Now, identify what tasks are involved in your creation and estimate how much time it will take to complete them. It’s not a commitment to a particular approach, rather a guide for you to anticipate what will be required.

Enter an ‘X’ in any column next to a task your creation will entail, and then predict how long it will take you to do (in hours).

[ X ]	Task	Est. time (in hrs)
X	Generate ideas	30 min
X	Conduct research	1 HOUR
	<a href="#">Storyboard</a>	
X	Write script	30 min
X	Find graphics (don't forget to attribute!)	15 min
	Create graphics	
	Record & edit audio	
	Record & edit video	
X	Write copy (text)	15 min
X	Design website (or style web authoring tool, like Scalar or Prezi)	5 min
	Write code	
X	Identify and remedy any accessibility barriers (e.g. captioning)	15 min
X	Review for errors	10 min
