

Technology-Enabled Activity Planning Document

This document may help you plan your creation, as well as encouraging you to estimate how much time you will need to invest.

Title:	Helping students learn to revise their 5-paragraph argumentative essay by incorporating concession to it.
Tool using:	<i>Coggle</i>
Idea:	Notion can be used to show case all the steps involved and mindset needed to develop a concession for an argumentative essay.
Curriculum integration:	Incorporating the steps for writing concessions using Coggle into our curriculum will simplify learning about concessions. Students will learn steps involved in developing concessions and apply the steps in their writing through structured lessons guided by teachers. They'll practice with assignments and group work, improving their writing and critical thinking skills. This approach caters to different learning styles, particularly benefiting visual learners who thrive with visual aids like Coggle.

Now, identify what tasks are involved in your creation and estimate how much time it will take to complete them. It's not a commitment to a particular approach, rather a guide for you to anticipate what will be required.

Enter an 'X' in any column next to a task your creation will entail, and then predict how long it will take you to do (in hours).

[X]	Task	Est. time (in hrs)
	Generate ideas	.5
	Conduct research	2
	Storyboard	

	Write script	1
	Find graphics (don't forget to attribute!)	
	Create graphics	3
	Record & edit audio	
	Record & edit video	
	Write copy (text)	
	Design website (or style web authoring tool, like Scalar or Prezi)	
	Write code	
	Identify and remedy any accessibility barriers (e.g. captioning)	
	Review for errors	.5
	Other: Incorporating the Coggle map into the existing curriculum and weekly lesson in a meaningful way.	2.5
